

Title	Index of authors
Citation	Memoirs of the Faculty of Engineering, Hokkaido Imperial University, 4, i-ii
Issue Date	1938
Doc URL	http://hdl.handle.net/2115/37719
Type	bulletin (other)
File Information	4_index1.pdf

[Instructions for use](#)

INDEX OF AUTHORS

	Page
M. Aramata:—On the Size and Specific Gravity of Seashore Sand. (With Y. Ikeda and K. Yoneta).....	239
—————: — On the Propagation of Shock through Sand on the Beaches of Iwanai and Isikari. (With Y. Ikeda).....	275
—————: — On Dune Formation	293
—————: — Sand Vortices on a Shallow Sea Bottom. (With Y. Ikeda and K. Yoneta)	301
S. Homma:— Parallel Stream Disturbed by Barriers and Gate. (With Y. Ikeda)	23
S. Iguti:—Die Eigenwertprobleme für die elastische rechteckige Platte	303
Y. Ikeda: — On Practical Methods of Conformal Representation ..	1
—————: — Conformal Representation and Electric Discharge Figure	5
—————: — Streamlines near the Rectangular Edge. (With S. Kobayasi, T. Sakurai and F. Tatibana)	13
—————: — Parallel Stream Distrubed by Barriers and Gate. (With S. Homma)	23
—————: — Parallal Stream Distrubed by Barriers and Gates. (With S. Kobayasi and T. Ueki).....	213
—————: — Cooling Problem and Conformal Representation. (With S. Kurokawa and T. Ueki).....	235
—————: — On the Size and Specific Gravity of Seashore Sand. (With M. Aramata and K. Yoneta).....	239
—————: — On the Propagation of Shock through Sand on the Beaches of Iwanai and Isikari. (With M. Aramata).....	275
—————: — Sand Vortices on a Shallow Sea Bottom. (With M. Aramata and K. Yoneta)	301
S. Kobayasi: — Streamlines near the Rectangular Edge. (With Y. Ikeda, T. Sakurai and F. Tatibana).....	13
—————: — Parallel Stream Disturbed by Barriers and Gates. (With Y. Ikeda and T. Ueki)	213

	Page
S. Kurokawa:—Cooling Problem and Conformal Representation. (With Y. Ikeda and T. Ueki).....	235
T. Sakai:—A New Method of Rapid Computation of Secondary Stresses of Simple Bridge Trusses. (With F. Takabeya).....	115
—————:—A Speedy Method of Calculation for Secondary Stresses of Simple Bridge Trusses by Numerical Moment Formulae...	373
T. Sakurai:—Streamlines near the Rectangular Edge. (With Y. Ikeda, S. Kobayasi and F. Tatibana).....	13
F. Takabeya:—Practical Method of Calculation for Vierendeel Truss Bridges	29
—————:—A Speedy and Accurate Method of Wind Stress Calculation for High Storied Bents.....	75
—————:—A New Method of Rapid Computation of Secondary Stresses of Simple Bridge Trusses. (With T. Sakai).....	115
F. Tatibana:—Streamlines near the Rectangular Edge. (With Y. Ikeda, S. Kobayasi and T. Sakurai)	13
T. Ueki:—Parallel Stream Disturbed by Barriers and Gates. (With Y. Ikeda and S. Kobayasi).....	213
—————:—Cooling Problem and Conformal Representation. (With Y. Ikeda and S. Kurokawa).....	235
K. Yoneta:—On the Size and Specific Gravity of Seashore Sand. (With Y. Ikeda and M. Aramata)	239
—————:—Sand Pressure on a Hole in a Vessel	255
—————:—On Wave Propagation on the Surface of a Sand Mass	265
—————:—On the Creation of the Suribati at Iwanami	281
—————:—Sand Vortices on a Shallow Sea Bottom. (With Y. Ikeda and M. Aramata).....	301
