### Citation
1 Problems

Difficult issues and problems around the world

- Environment
  - Issues of excessive industrialization & urbanization

- Traditions
  - Lost languages & cultures of ethnic minorities

- Diplomacy
  - Military bases in Okinawa & territorial controversy

What can we do to overcome such difficult situations?

2 Objective of our presentation

We would like to demonstrate the possibilities of new innovative forms of tourism and illustrate the ripple effect and quiet revolution that can be generated by the power of new innovative forms of tourism.

3 Keywords and definitions

Mass tourism

"Mass tourism refers to the steady stream of large numbers of tourists to holiday destinations. The sheer volume of tourists places the physical environment and culture of destination communities under great pressure." (Jafari, 2000)

Sustainable tourism

“Sustainable tourism is tourism that has a negligible, minimal or the least possible effect on the pre-existing economic, social/cultural and ecological situation.” (Smith & Eadington, 1999)

5 Solutions

Problems of Environment
- e.g.) eco tourism, green tourism
- Scientific technology
- Volunteer tourism

Problems of Traditions
- Main solutions: Education
- Main solutions: Politics & War

Problems of Diplomacy
- e.g.) ethnic tourism, heritage tourism, cultural tourism

New innovative forms of tourism ⇒ Power to lead the world to be more sustainable

6 Conclusion

1. The conventional forms of tourism ⇒ Passive practices
2. The new forms of tourism ⇒ More active & mutual deeds (i.e. sustainable tourism)
   - More opportunities to share the natural environment, different traditions & different culture in more sustainable ways.
   - Reduce in conflicts and enhanced understanding among different cultures and nations.
3. Huge power to contribute to realization of the sustainable world
