Hokkaido University Collection of Scholarly and Academic Papers : HUSCAP
The late Dr. Ukichiro Nakaya, Professor, Hokkaido University, internationally known physicist and meteorologist. (Photographed by Mr. Tanuma, Sun Telephoto. Comp.)

Dr. Ukichiro Nakaya died of a cancer of the medulla on 11 April 1962. He left not only unique scientific works as listed in the following page, but many excellent essays.

He was particularly famous for his study on snow crystals.
List of Research Work Publications in English

by Prof. U. Nakaya

22. On Some Relations between the Form of Lichtenberg's Figure and that of its Exciting Spark. Jour. Fac. Sci., Hokkaido Univ., Ser. II, 1, pp. 68-75, (1930)

27. Snow Crystals Observed in 1933 at Sapporo and Some Relations with Meteorological Conditions. (with T. Iizima) Jour. Fac. Sci., Hokkaido
