On-Demand Guidance on Northern Campus Library's Service

Using Northern Campus Library's resources and the others

Hokkaido University
Northern Campus Library

April 2019

Using Northern Campus Library's resources and the others

1) Northern Campus Library's resources

- Current journals, Japanese newspapers, and e-resources (via HINES-WLAN)
- 21,000 paper materials
- Library staff

2) The other resources

- Paper materials of the libraries of Hokkaido University
- Open Access papers and materials available on Google Books
- [Not Free] Materials of other universities
- [Not Free] Buy electronic / paper materials at public expense
- Request to corresponding authors

1) Northern Campus Library's resources

* Opening hours and entering the library

Open at 9AM - 5PM on Weekdays

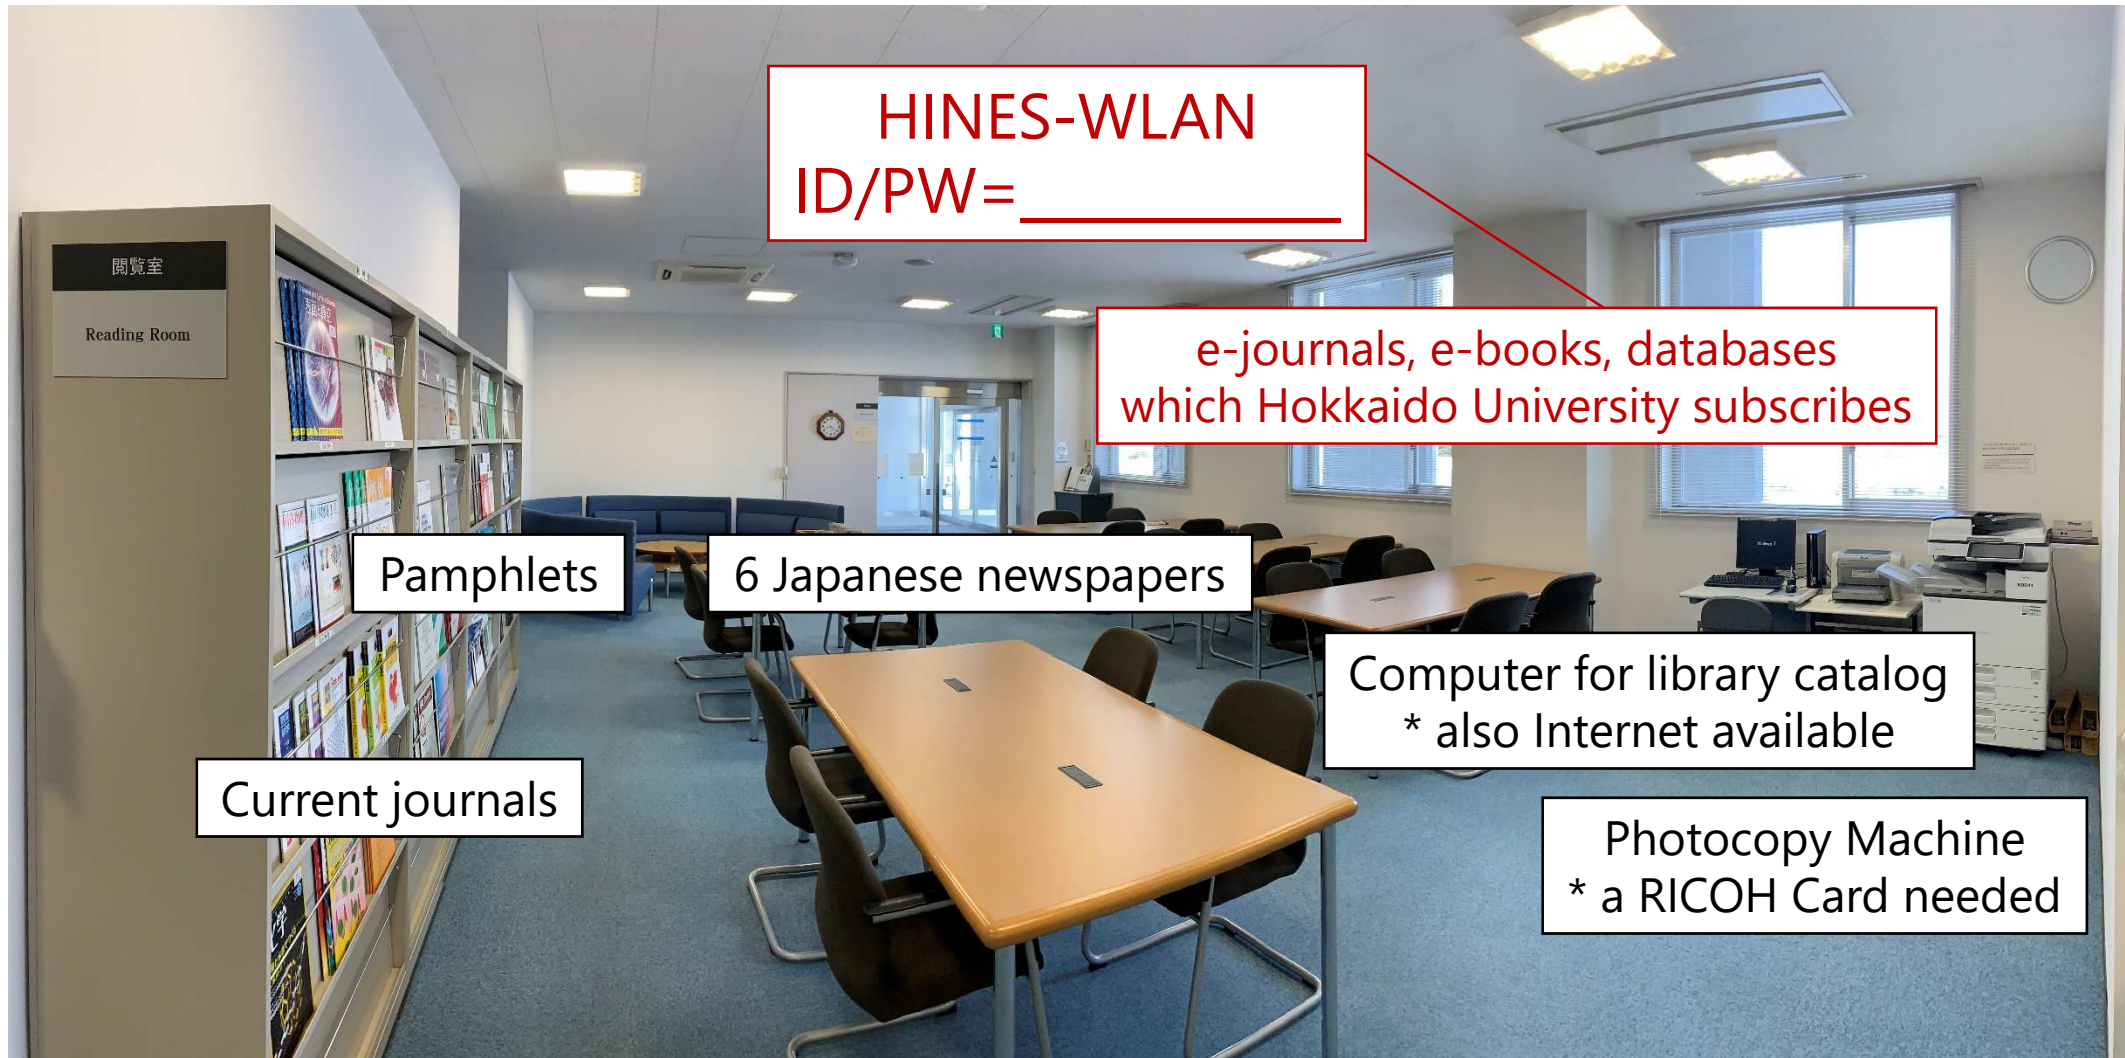

When staff takes day off,
the library opens at 1PM

The students and faculty of
CRIS, RIES, ICAT, and ARC
can enter the library
with their own IC card,
even when it is closed

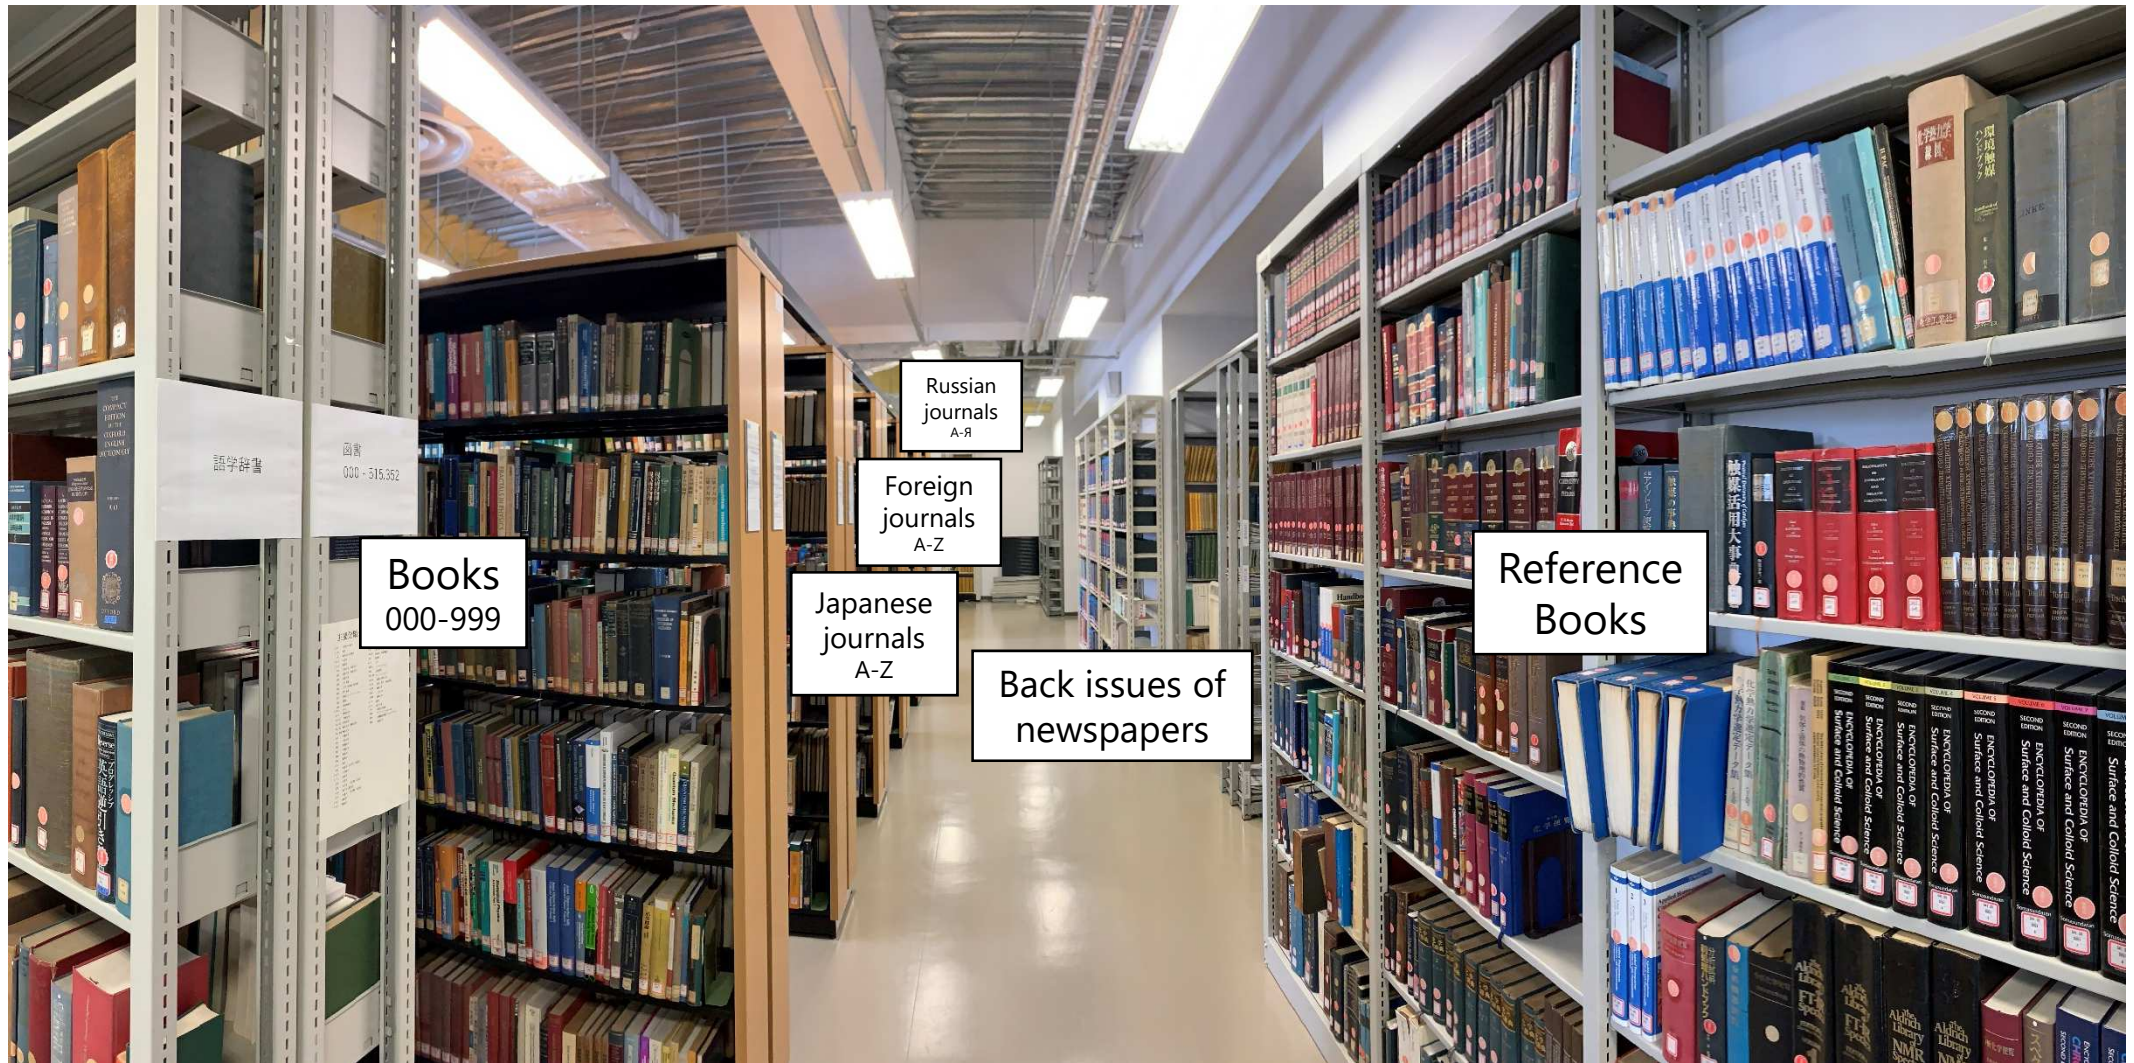

1) Northern Campus Library's resources

- Current journals, Japanese newspapers, and e-resources (via HINES-WLAN)

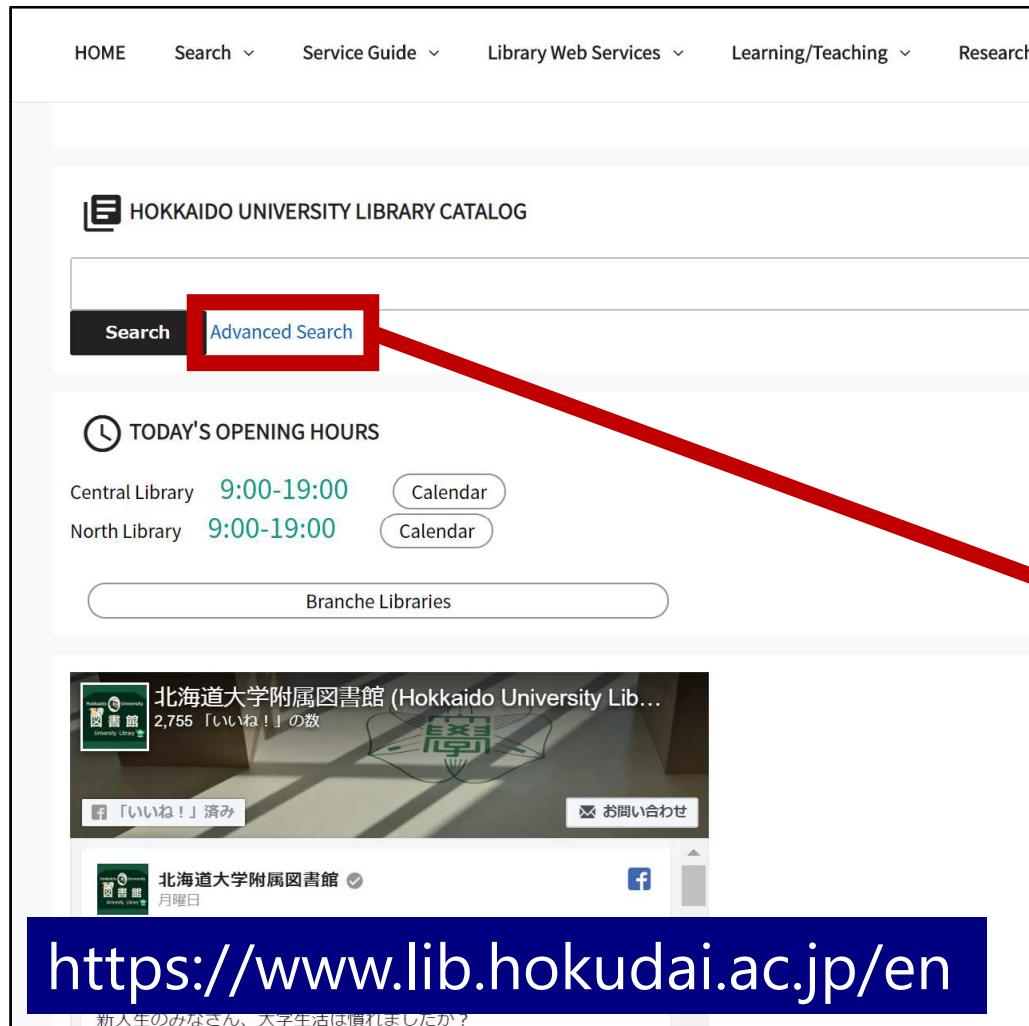

1) Northern Campus Library's resources

- 21,000 paper materials

1) Northern Campus Library's resources

* borrow (up to 3) materials (within 3 weeks) and return them

1) When staff is present, bring materials to the counter

2) When staff is absent,

borrow

Fill in your
- Department
- Name
- Date

Right side of
the counter

return

Left side of
the counter

2) The other resources

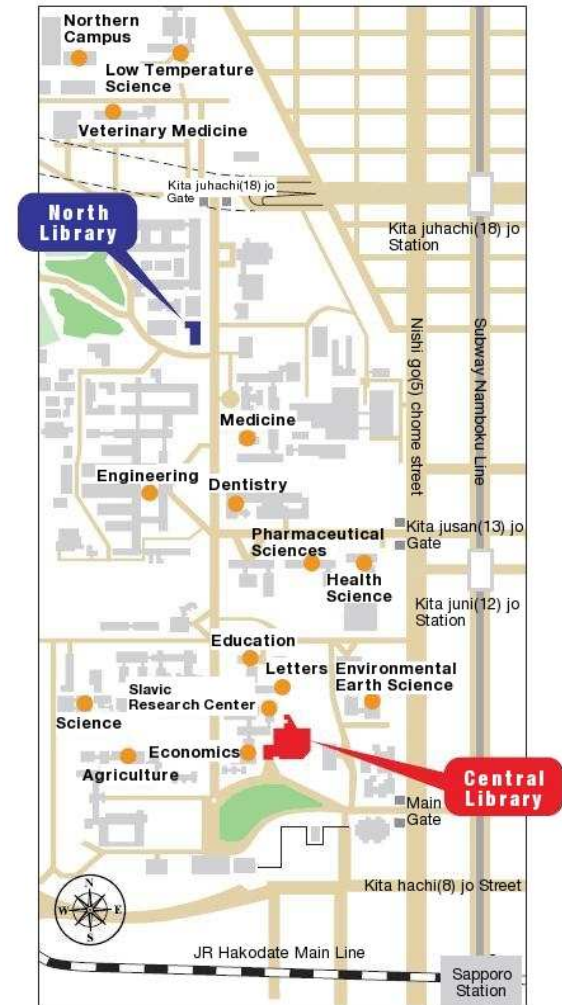

- Paper materials of the libraries of Hokkaido University

The students and faculty of Hokkaido University can use all the libraries of the university

Borrowing limits do not affect ones of other libraries

* You can borrow 3 materials at this library and 8 materials at Central Library at the same time

The materials of the other libraries (except for the fisheries science library at Hakodate Campus) cannot be returned to this library

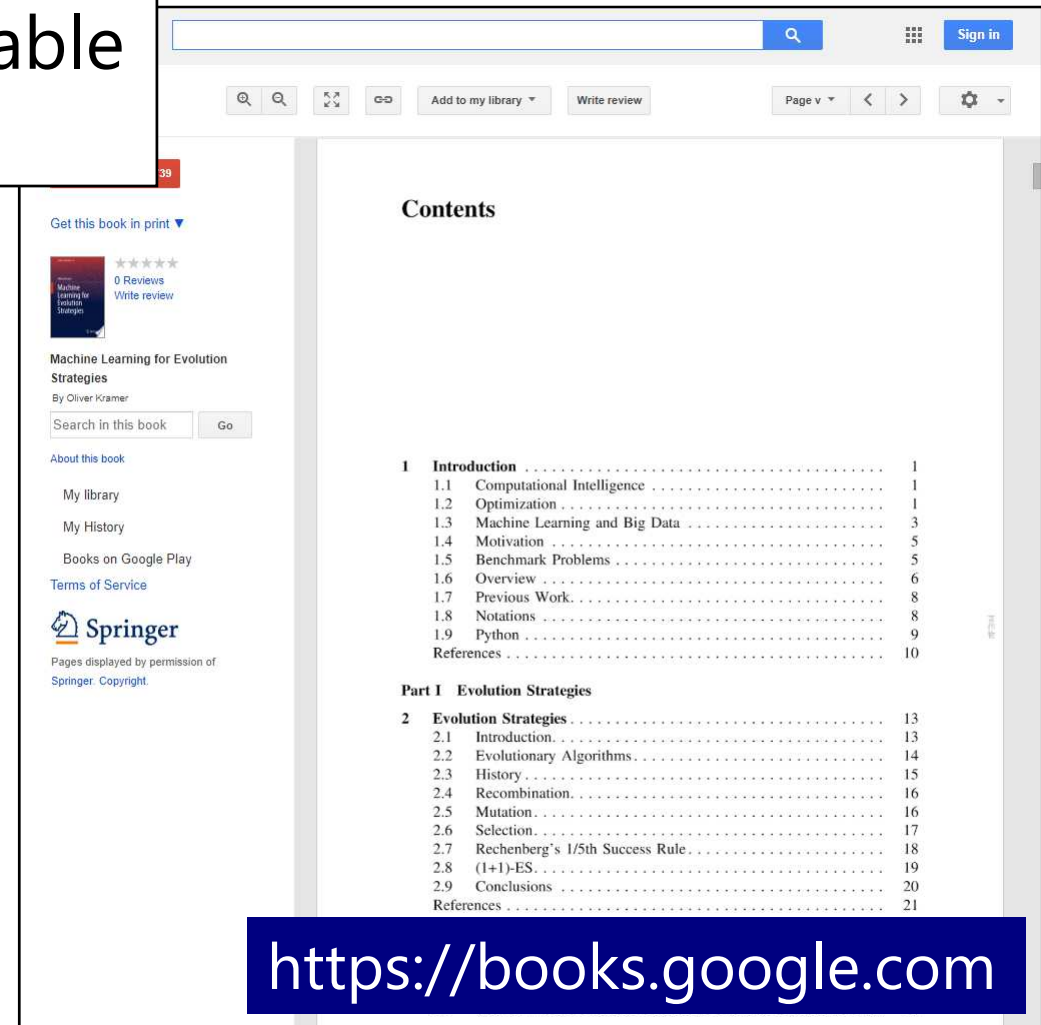

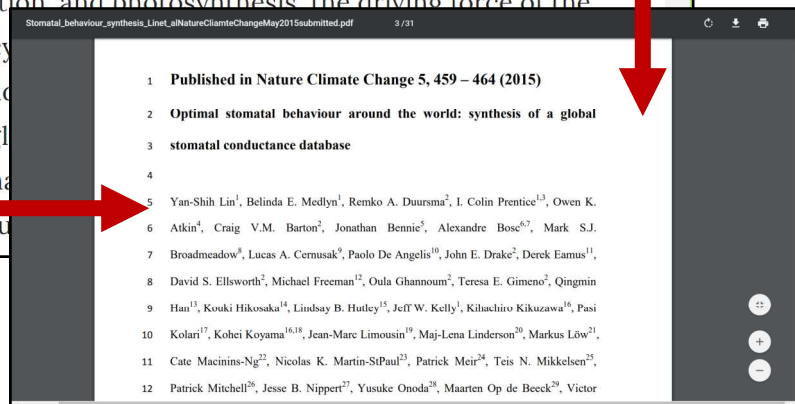

2) The other resources

- Open Access papers and materials available on Google Books

If papers / materials are unavailable in Hokkaido University...

Some browser plug-ins (such as Unpaywall, Kopernio) navigate you to the Open Access version

2) The other resources

- [Not Free] Materials of other universities

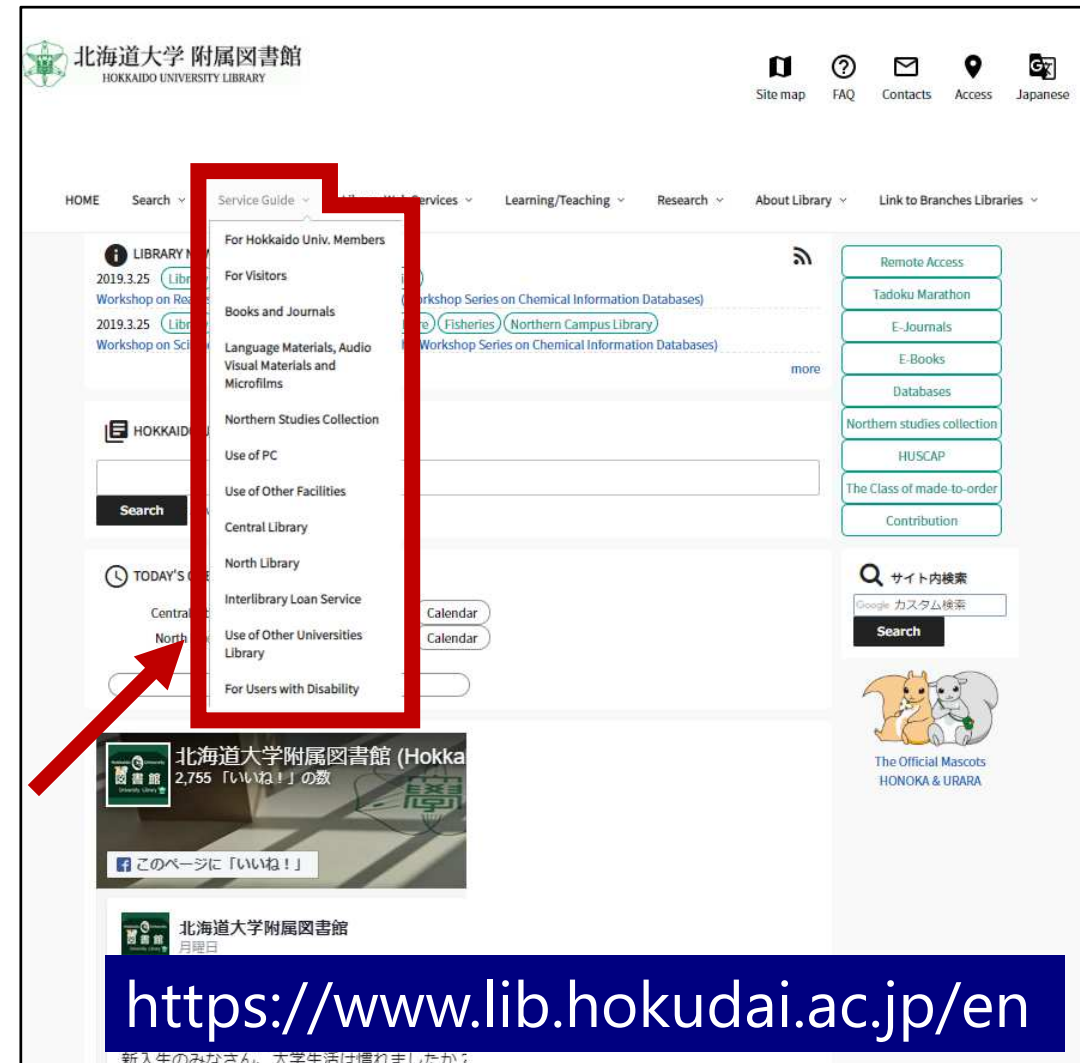

1) Order photocopies and materials from other universities

Payable for private or public expense

If you use public expense (Ippan-Un'ei-Zaigen), you can receive photocopies of the materials of the libraries of Hokkaido University in PDF format

2) Visit other university libraries

If necessary, this library issues a free letter of introduction

2) The other resources

- **[Not Free]** Buy electronic / paper materials at public expense

Buy materials at public expense
from bookshops / publishers

With the corporate card
you can buy papers in PDF format

The screenshot shows a journal article page with a red box highlighting the 'Access options' section. The options are 'Rent or Buy article' (from \$8.99) and 'Subscription info for Japanese customers'. The 'Rent or Buy' option is further highlighted with a red box. Below the options, there is a section for 'Additional access options' with links to 'Log in', 'OpenAthens', and 'Shibboleth'.

The screenshot shows the Hokkaido University Library website. A red box highlights the 'Library Web Service' menu, which includes options like 'Loan/Reservation status, loan extension', 'Book request', 'Book purchase application', and 'Book purchase application status'. A red arrow points to the 'Book purchase application' option. Below the screenshot, a blue box contains the URL <https://www.lib.hokudai.ac.jp/web/book-order-help> and the note '* only on campus and in Japanese'.

Abstract

Recommender systems in e-learning domain play an important role in assisting the learners to find useful and relevant learning materials that meet their learning needs. Personalized intelligent agents and recommender systems have been widely accepted as solutions towards overcoming information retrieval challenges by learners arising from information overload. Use of ontology for knowledge representation in knowledge-based recommender systems for e-learning has become an interesting research area. In knowledge-based recommendation for e-learning resources, ontology is used to represent knowledge about the learner and learning resources. Although a number of review studies have been carried out in the area of recommender systems, there are still gaps and deficiencies in the comprehensive literature review and survey in the specific area of ontology-based recommendation for e-learning. In this paper, we present a review of literature on ontology-based recommenders for e-learning. First, we analyze and classify the journal papers that were published from 2005 to 2014 in the field of ontology-based recommendation for e-learning. Secondly, we categorize the different recommendation techniques used by ontology-based e-learning recommenders. Thirdly, we categorize the knowledge representation technique, ontology type and ontology representation
