### RESEARCH OUTLINE: THE PSOCIDS OF HAWAII

**Emilie Bess** (University of Illinois, USA)

Hello, Psocidologists.

I recently joined the psocid community after completing a master's degree in botany at the University of Missouri - St. Louis. Insects are much more interesting than plants, so I was happy to begin working on psocids in 2005 when I started my doctoral thesis at the University of Illinois under the advisement of Dr. Kevin Johnson. My thesis project focuses on the radiation of *Ptycta* (Psocidae) on the Hawaiian Islands, where there are more than 50 described species. I am investigating the diversity, morphological and molecular phylogenetics, and biogeographic history of the group in order to describe the origin and timing of colonization. Dr. Edward Mockford has taught me a great deal about the morphology and natural history of psocids, both here in Illinois and during a collecting trip in Hawaii in January of 2007. During the summer of 2006, I received a NSF/JSPS fellowship that allowed me to work with Dr. Kazunori Yoshizawa in Sapporo, Japan. I had a lovely summer in Japan and learned a great deal about psocid taxonomy. We described two new species of *Ptycta* from Japan, which provided a great introduction to the process of illustrating psocids. In addition to my work on Hawaiian and Asian *Ptycta*, I am also constructing a series of web pages about psocids and parasitic lice for the Tree of Life Web Project (<http://www.tolweb.org/Psocodea>).

### ADDITIONS AND CORRECTIONS (PART 6) TO LIENHARD & SMITHERS, 2002: "PSOCOPTERA (INSECTA) - WORLD CATALOGUE AND BIBLIOGRAPHY"

**Charles Lienhard** (Geneva Natural History Museum, Switzerland)

#### 1. Introduction

This is the sixth part of a series of "Additions and Corrections to the World Catalogue and Bibliography" published in "Psocid News" (Parts 1-5 in Psocid News no. 4-8). Please send me regularly copies of your papers on Psocoptera, and please inform me about errors that you find in the 2002-book (= Lienhard & Smithers, 2002). If papers which came to your notice are not treated in the "Additions", please send me the bibliographical references by e-mail. In the "Additions to the Bibliography", references to the papers which I have not yet seen are marked with "(Not seen)" or "(Only abstract seen)". Please send me a copy of these papers if you feel concerned. Only papers which I have seen are analysed for the "Additions to the Catalogue", or those where the matter they deal with is clearly indicated in the title or in the abstract. The other papers will be analysed in a future part of the "Additions to the Catalogue", as soon as a copy of them becomes available to me.

In general these "Additions" present the information in the style of the 2002-book, according to the criteria mentioned there (pp. ix-xli) and using the same abbreviations (cf. pp. xl-xli). Families (and higher categories, if mentioned) are listed according to Table 1 of the 2002-book, except for changes published since (see "Additions", Parts 1-5). For each family, newly published changes concerning supra-generic taxa are mentioned at the beginning of the family treatment, except for Psocidae, where subfamilies are treated separately. For genus-group names and species-group names already mentioned in the 2002-book only the author is cited, for new names the complete reference (author, year, page) is given in their first entry, where new genus-group names are marked with two asterisks (\*\*) and new species-group names with one asterisk (\*). For a name not mentioned in the 2002-Catalogue, but cited in a preceding part of the "Additions", author and year are mentioned [the complete reference can be found in the Part of the

"Additions", where the name has been cited for the first time (= first entry of a new name)]. Genera are listed alphabetically within each family, except for Psocidae, where they are grouped according to subfamilies. Species are listed alphabetically within each genus. Species names are usually cited in the combination used in the 2002-book, if not an explicit change of combination (or a new synonymy) has been published since. Country names (in the "Additions to the Catalogue") and author names (in the "Additions to the Bibliography") are not printed in small capitals, as in the 2002-book, but in normal letters. The "Corrections" refer to the pages of the 2002-book and the changes proposed here are usually underlined.

No nomenclatural act is published in the "Additions to the Catalogue" because articles in "Psocid News" are not considered as published works under the rules of ICZN (cf. Editorial: Disclaimer). Sometimes recommendations to future revisers are given concerning nomenclatural acts which eventually should be published. Only some mandatory changes are made in the "Additions to the Catalogue" (e. g. adaptation of species name endings to the grammatical gender of the genus name).

Complete bibliographical references to publications cited in the present paper, which are not listed in Chapter 4 (Additions to the Bibliography), can be found in the World Bibliography (Lienhard & Smithers, 2002: 493-664) or in Parts 1 to 5 of the "Additions" (Psocid News, no. 4, 5, 6, 7, 8).

## 2. List of countries mentioned in the "Additions and Corrections to the World Catalogue" (Parts 1-6)

Country checklists of Psocoptera species extracted from the 2002-World Catalogue are available at: <http://www.ville-ge.ch/musinfo/mhng/page-e/ps-coun.htm>

All additional species records are mentioned in the "Additions and Corrections to the World Catalogue" and all countries mentioned in Parts 1 to 6 of these Additions are listed below, arranged according to the main geographical regions defined for the Catalogue (**I-X**), with a separate heading for fossils recorded, mainly from amber (**A**). This list is provided to facilitate computer searching for distributional references in the online version of the different parts which can be found on the PsocoNet Homepage: <http://insect3.agr.hokudai.ac.jp/psoco-web/psoco-net/index.html>

*Psoquilla marginepunctata* Hagen. Great Britain (I): New, 2005a. Italia (I): Nicoli Aldini, 2003, 2004c.

*Rhyopsocoides*\*\* Garcia Aldrete, 2006b: 2. Gender: M. Type species: *Rhyopsocoides typhicolus* Garcia Aldrete.

*Rhyopsocoides typhicolus*\* Garcia Aldrete, 2006b: 2. Mexico (IV).  
*Rhyopsocus* spec. Phylog.: Yoshizawa *et al.*, 2006.  
*Rhyopsocus disparilis* (Pearman). Great Britain (I): New, 2005a; Alexander, 2006.  
*Rhyopsocus peregrinus* (Pearman). Great Britain (I): New, 2005a.

#### Psyllipsocidae

*Dorypteryx domestica* (Smithers). Great Britain (I): New, 2005a. Italia (I): Nicoli Aldini, 2003, 2004c. Switzerland (I): Gonseth, 2005. Phylog.: Yoshizawa *et al.*, 2006.  
*Dorypteryx longipennis* Smithers. Ireland (I): OConnor & Vaucheret, 2006. Italia (I): Nicoli Aldini, 2003, 2004c. Switzerland (I): Gonseth, 2005.  
*Dorypteryx pallida* Aaron. Switzerland (I): Gonseth, 2005.  
*Psocathropos lachlani* Ribaga. Pest: Rees, 2004.  
*Psyllipsocus eocenicus*\* Nel, Prokop, De Ploeg & Millet, 2005: 372. Tertiary amber (Eocene), France (A).  
*Psyllipsocus oculatus* Gurney. Phylog.: Yoshizawa *et al.*, 2006.  
*Psyllipsocus ramburii* Selys-Longchamps. Belgium (I): Dethier & Willems, 2005 (in caves). Great Britain (I): New, 2005a. Gough Island (II): Jones *et al.*, 2002.

#### Prionoglarididae

*Prionoglaris* spec. Phylog.: Yoshizawa *et al.*, 2006.  
*Siamoglaris zebrina* Lienhard, 2004b. Phylog.: Yoshizawa *et al.*, 2006.  
*Speleketor irwini* Mockford. Phylog.: Yoshizawa *et al.*, 2006.  
*Sensitibilla strinatii* Lienhard. Phylog.: Yoshizawa *et al.*, 2006.

#### Electrentomidae

*Eomanicapsocus*\*\* Nel, Prokop, De Ploeg & Millet, 2005: 381. Gender: M. Type species: *Eomanicapsocus melaniae* Nel, Prokop, De Ploeg & Millet.  
*Eomanicapsocus melaniae*\* Nel, Prokop, De Ploeg & Millet, 2005: 381. Tertiary amber (Eocene), France (A).  
*Eoprotoctopsocus*\*\* Nel, Prokop, De Ploeg & Millet, 2005: 383. Gender: M. Type species: *Eoprotoctopsocus celinea* Nel, Prokop, De Ploeg & Millet. (Tentatively placed in Manicapsocidae).  
*Eoprotoctopsocus celinea*\* Nel, Prokop, De Ploeg & Millet, 2005: 383. Tertiary amber (Eocene), France (A).  
*Epitroctes* spec. Phylog.: Yoshizawa & Johnson, 2006 (morph.).  
*Phallopsocus* spec. Phylog.: Yoshizawa & Johnson, 2006 (morph.).

#### Compsocidae

*Compsocus elegans* Banks. Phylog.: Yoshizawa & Johnson, 2006 (morph.); Yoshizawa *et al.*, 2006.  
*Electrentomopsis* spec. Phylog.: Yoshizawa & Johnson, 2006 (morph.).

#### Troctopsocidae

Troctopsocidae gen spec. Malaysia (VIII): Yoshizawa, 2005b (morph.).  
*Selenopsocus* spec. Phylog.: Yoshizawa & Johnson, 2006 (morph.); Yoshizawa *et al.*, 2006.

#### Musapsocidae

*Musapsocus* spec. Phylog.: Yoshizawa & Johnson, 2006 (morph.); Yoshizawa *et al.*, 2006.

#### Amphientomidae

*Cymatopsocus* spec. Malaysia (VIII): Yoshizawa, 2005b (morph.). Phylog.: Yoshizawa & Johnson, 2006 (morph.).  
*Amphientomum parisiense*\* Nel, Prokop, De Ploeg & Millet, 2005: 384 (incorrectly spelled *parisiensis*). Tertiary amber (Eocene), France (A).  
*Paramphientomum* spec. Taiwan (VIII): Yoshizawa, 2005b (morph.).  
*Paramphientomum yumyum* Enderlein. Morph.: Yoshizawa, 2005b.  
*Stimulopalpus japonicus* Enderlein. Phylog.: Murrell & Barker, 2005.

#### Liposcelididae

Phylogeny of Liposcelididae, including fossils: Grimaldi & Engel, 2006a.  
Liposcelididae spec. Phylog.: Murrell & Barker, 2005.  
*Belapha* spec. Phylog.: Yoshizawa & Johnson, 2006 (morph.).  
*Belaphopsocus dominicus*\* Grimaldi & Engel, 2006a: 628. Tertiary amber (Miocene), Dominican Republic (A).  
*Cretoscelis*\*\* Grimaldi & Engel, 2006a: 626. Gender: F. Type species: *Cretoscelis burmitica* Grimaldi & Engel.  
*Cretoscelis burmitica*\* Grimaldi & Engel, 2006a: 626. Cretaceous amber, Myanmar (A).  
*Embidopsocus* spec. Phylog.: Yoshizawa & Johnson, 2006 (morph.).  
*Embidopsocus enderleini* (Ribaga). Great Britain (I): New, 2005a; Alexander, 2006.  
*Embidopsocus eocenicus* Nel, De Ploeg & Azar, 2004. Description of apterous specimen: Nel *et al.*, 2005: 379. Tertiary amber (Eocene), France (A).  
*Embidopsocus minor* (Pearman). Great Britain (I): New, 2005a.  
*Liposcelis* spec. Great Britain (I): Downing, 1985 (pest). Gough Island (II): Jones *et al.*, 2002. Phylog.: Murrell &

*Sphaeropsocopsis* spec. USA: California (III): Grimaldi & Engel, 2006b: 16 (this is the species tentatively placed in *Sphaeropsocus* by Mockford, 1993a).

*Sphaeropsocus* Hagen. Revised diagnosis: Grimaldi & Engel, 2006b: 5.

*Sphaeropsocus kuenowii* Hagen. Redescription: Grimaldi & Engel, 2006b: 5; Eocene amber (A). Baltic Amber (Tertiary: Eocene) (A): Engel & Perkovsky, 2006a. Amber (Tertiary: Eocene), Ukraine (A): Engel & Perkovsky, 2006a, 2006b.

### Epipsocetæ

Casasola Gonzalez, 2006a: Phylogenetic relationships of the genera, revised family classification: Dolabellopsocidae, Ptiloneuridae, Spurostigmatidae, Cladiopsocidae, Epipsocidae, ?Neurostigmatidae (probably family status not justified, very close to Epipsocidae).

Casasola Gonzalez, 2006b: Phylogeny and classification discussed, keys to families, diagnoses of infraorder and families, family status of Neurostigmatidae not recognized (i.e. *Neurostigma* assigned to Epipsocidae).

### Dolabellopsocidae

Casasola Gonzalez, 2006a: Transfer of *Dimidistriata* Li Fasheng & Mockford to Epipsocidae.

*Auroropsocus orientis* Eertmoed. India, Malaysia (VIII): Casasola Gonzalez, 2006a (phylog.).

*Auroropsocus strenus* Li Fasheng, 2002a. Phylog.: Casasola Gonzalez, 2006a.

*Dolabellopsocus* spec. Peru (V): Casasola Gonzalez, 2006a (phylog.).

*Dolabellopsocus roseus* Eertmoed. Morph.: Yoshizawa, 2005b.

*Myopsocus* spec. Japan (VIII): Yoshizawa, 2005b (morph.).  
*Myopsocus arthuri*\* Nel, Waller & Poinar, 2006: 64. Amber (Tertiary), Dominican Republic (A).

#### 4. Additions to the Bibliography

NOTE: Complete bibliographical references to publications cited in the present paper, which are not listed below, can be found in the World Bibliography (Lienhard & Smithers, 2002: 493-664) or in Parts 1 to 5 of the "Additions" (Psocid News, no. 4, 5, 6, 7, 8).

#### Remarks:

The following unpublished works are listed below (a copy of each is deposited in the psocid library of the Geneva Natural History Museum): Boatwain, 1998; Harris, 1999; Hossain, 1997; Luzajic, 1998; Saleem, 1997.

Each issue of "Psocid News" is separately quoted under Yoshizawa (ed.). Selected references to some particularly interesting contributions out of these newsletters can also be found under the authors' names.

Usually cross-references for all authors are made, as in the 2002-bibliography, except for papers with more than five authors which are merely cited as "first author *et al.*"; in cases of more than one editor, cross-references are usually only made for the first editor.
